Logica Universalis International Journal of Logic

Aims and Scope

Logica Universalis publishes peer-reviewed research papers related to universal features of logics. Topics include general tools and techniques for studying already existing logics and building new ones, the study of classes of logics, the scope of validity and the domain of application of fundamental theorems, and also philosophical and historical aspects of general concepts of logic.

Call for papers

The first issue will be released at the beginning of 2007. Submission of papers is welcomed. Papers should be sent to:

universal.logic@unine.ch

Authors should use the Birkhäuser LaTeX class file `birkmult.cls` available as `birkmult.zip` at: www.birkhauser.ch/math/downloads
